Family Kompakt

Close-Fitting Cassette awning that is easy to operate

*“...always keeping sight,
of the real values.”*

The distinctive features of our FAMILY KOMPAKT are its superior quality, ease of operation and high value retention. Its classic design lends tranquillity to the home and bestows a holiday atmosphere.

This high-quality cassette awning fits snugly against the wall and offers a high degree of comfort and superb technical features. The FAMILY KOMPAKT combines the protective function of a cassette awning with the ease of installation of an open awning: the support tube is open thus making fitting simpler. The cassette can also be supplied without side end caps for recess fit installation.

FULL CASSETTE

A height of just 200mm and a depth of 200mm (when the cassette is closed), the FAMILY KOMPAKT boasts an extremely compact design. The full cassette, which is closed on all sides, protects the awning against soiling and the effects of the weather.

The front profile bracket connects the arms securely to the front profile and permits easy adjustment of the angle.

Arm Bracket ▲

Arm bracket of high-strength aluminium alloy with support and high-impact screw, upper arm fork of forged aluminium.

Spring Tension Arm ▲

In the central hinged arm joints, a plastic sheath prevents soiling and corrosion of the double cable and extends its service life.

Fabric Cover Shell ▲

The fabric cover shell offers an elegant solution for concealing the fabric roller.

System

The FAMILY KOMPACT is a sturdy, longlasting quality awning with:

- ▶ Front profile with double hollow chamber and integral rain gutter
- ▶ 40 x 40 x 2mm console tube, Galvanised and Powder-coated
- ▶ Rust-free pins, Teflon-coated bearings, stainless steel screws

Options

For even greater comfort you can equip your FAMILY KOMPACT with:

- ▶ Motion Sensor
- ▶ Sun and Wind Sensor
- ▶ Radio Remote Control
- ▶ Remote control LED Light system
